

UKCA Type Examination Certificate

This is to certify that: Cam Lock Limited
Unit 10
Springlakes Industrial Estate
Aldershot
GU12 4UH
United Kingdom

Holds Certificate Number: UKCA 772508

In respect of:

Models: RIG walker & Air walker Supplied Airline Breathing Apparatus to EN 14593-1:2005 Respiratory protective devices — Compressed air line breathing apparatus with demand valve —Part 1: Apparatus with a full mask.

On the basis that BSI carried out the relevant Type Examination procedures under the requirements with the Regulation 2016/425 on Personal Protective Equipment, as amended to apply in GB (PPE) Annex V (Module B) and meets the relevant health and safety requirements specified in Annex II.

For and on behalf of BSI, an Approved Body for the above Regulation (Approved Body Number 0086):

Shahm Barhom, Group Product Certification Director

First Issued: 2022-08-12
Latest Issue: 2023-06-29

Effective Date: 2023-06-29
Expiry Date: 2027-08-12

UKCA Type Examination Certificate

No. UKCA 772508

Product specification: Respiratory protective devices – Compressed air line breathing apparatus with demand valve - full face mask.

Models in Range: RIG-walker® Airline Breathing Apparatus with escape facility.

Models: RIGB - Bandolier
RIGH - Harness

Product Description: The RIG-walker® range of airline escape sets are lightweight, portable, compressed air working airline escape sets with 15, or 20, minute duration. The body harness is either a bandolier or alternative backpack. The RIG-walker is worn in a harness or a bandolier with integral airline hoses for connection to breathing air from a local compressor. RIG-walker is also equipped with a reserve compressed air cylinder and reduction valve for escape. The product features an Automatic Switch Valve (ASV) that automatically opens the emergency air supply from the cylinder when the external airline supply to the apparatus fails. The wearer is instantly alerted that they are now breathing air from the cylinder by an audible warning alarm.

Face mask: The FAST (FAST-mask), FASC (FAST-cowl) & FASCP (FAST-cowl with cape) fitted with integral demand valve to provide positive pressure air flow to the wearer, an exhalation valve and automatic inflating and self tensioning head harness.

Body harness: Option of bandolier or backpack harness configuration fitted with the emergency escape Cylinder and valve and carry pouch for the face mask. Breathing air supply hose assemblies including the external air supply pigtail hose connection, with Rectus (CEJN) male plug, or the optional variants the suffix; H for Hanson, F for Foster, or S for Staubli.

Air cylinder detail:

Cylinder Material	Capacity	Pressure	Duration
Carbon Fibre	2.0 litres	300 bar	15 minutes
Carbon Fibre	3.0 litres	200 bar	15 minutes
Carbon Fibre	3.0 litres	300 bar	20 minutes

Technical Specification: EN 14593-1:2005 Respiratory protective devices — Compressed air line breathing apparatus with demand valve —Part 1: Apparatus with a full mask —Requirements, testing, marking.
EN 402:2003 Respiratory protective devices — Lung governed demand self-contained open-circuit compressed air breathing apparatus with full face mask or mouthpiece assembly for escape — Requirements, testing, marking

UKCA Type Examination Certificate

No. UKCA 772508

Models in Range: AIR-walker Airline Breathing Apparatus.

Model: AIRB - Bandolier

Product Description: The AIR-walker (AIRB) is a positive pressure compressed airline breathing apparatus with medium pressure pneumatic assembly with 3 pigtail hose coupling options mounted to a bandolier body harness. Available with a choice of 3 mask options.

Face mask: The FAST (FAST-mask), FASC (FAST-cowl) & FASCP (FAST-cowl with cape) fitted with integral demand valve to provide positive pressure air flow to the wearer, an exhalation valve and automatic inflating and self tensioning head harness.

Bandolier: The AIR-walker is worn in a bandolier (AIRB) and supplied by an airline/cascade hose connected to breathing air from a local compressor. Breathing air supply hose assemblies including the external air supply pigtail hose connection, with Rectus (CEJN) male plug, or the optional variants the suffix; H for Hanson, F for Foster, or S for Staubli.

Technical Specification: EN 14593-1:2005 Respiratory protective devices — Compressed air line breathing apparatus with demand valve —Part 1: Apparatus with a full mask —Requirements, testing, marking.
